## TECHNOLOGY & BENEFITS

### CONVENIENCE

- >> **Icon TV and VCR Menu** - Offers simple operation by using picture symbols of key menu functions instead of plain text. Quickly access various TV features via pull down menus.
- >> **Picture Preference Modes** - Includes preset picture settings tailored for various programs and allows quick adjustments at the touch of a button. Instead of accessing Brightness, Contrast, Color, or Tint each time you switch from a movie to a sporting event, use the preset Picture Preference Modes (Standard, Sports, Movie, Memory) to change the quality of the picture without all the fuss. The Memory Mode allows you to customize your own settings and save them into the television's memory.
- >> **Auto Clock** - This feature ensures that your "TV" never blinks "12:00" again. A special data stream in your local broadcast source (where available) automatically sets the clock display and keeps it accurate—even when time changes to daylight savings and back.
- >> **Commercial Skip** - After a program has been recorded, pressing the SKIP button once during playback will automatically advance the tape 30-seconds forward bypassing recorded commercials. Pressing the skip button on the remote again will advance the recorded tape for another 30-seconds for a total of 60-seconds (30 sec x 6 Maximum).
- >> **One-Touch Record** - Simplifies setup of timer for recording within a 24-hour period. One button starts record and allows setting of a record length of up to 6 hours.
- >> **Tri-Lingual On-Screen Displays** - Allows viewers to read menu selections in three different languages (English, French, and Spanish) to ensure user-friendly programming.
- >> **Auto Tracking** - Constantly adjusts tape alignment for optimum picture quality.
